ENTHUSIASTIC

Are Local Hibernians Over
the First Nominations
Made.

Division 3, A. O. H., held a well attended meeting Monday night and nominated officers for the year 1907. Better men could not have been selected and throughout the city there is an enthusiasm that will reach all the divisions. The nominees are all men of experience and give assurance of a live and successful administration. They are as follows:
President—James Coleman.
Vice President—Phil Cavanaugh.
Recording Secretary—John Morris.
Financial Secretary—John Hession.
Treasurer—Daniel J. Dougherty and D. J. Coleman.
Sergeant-at-Arms—Patrick Begley.
Sentinel—Thomas Noone.
Standing Committee—Patrick Holley, Patrick T. Sullivan, Lawrence Mackey, Charles Boyle, George J. Butler.
John McEntegart was balloted for and elected, and the degree team was called upon to arrange for an initiation. A communication from Patrick Holley, thanking the members for their expression of sympathy, was read and entered upon the minutes. There was a feeling of regret when announcement was made of the illness of Patrick J. Nelligan and John Niland. The per capita assessment ordered for the San Francisco sufferers was allowed and a check for a handsome sum was forwarded. The election of officers will be held December 3.

PRIESTS HONORED.

Mrs. McCready and McGean
Hold Their Anniversary.

Two prominent Catholic clergymen of New York City—Mgr. Charles McCready of Holy Cross and Mgr. James H. McGean of "old" St. Peter's—last Saturday celebrated anniversaries of long service in the priesthood.

Archbishop Farley attended the service at Holy Cross which marked the fortieth anniversary of Mgr. McCready's ordination. A cablegram of good wishes was read from the Pope.

A purse of \$4,000 was presented by the congregation of "old" St. Peter's to Mgr. McGean, as a token of the twenty-fifth anniversary of his taking the pastorate. Many messages of congratulation were received by the venerable priests.

THE DAKOTA LIAR.

"Yes, sir," resumed the Dakota farmer, as the crowd of agriculturists seated themselves around a little table, "yes, sir, we do things on rather a sizeable scale. I've seen a man on one of our big farms start out in the spring and plow a straight furrow until autumn, then he turned around and harvested back. We have some big farms up there, gentlemen. A friend of mine owned one, which he had to give a mortgage on, and I pledge you my word the mortgage was due at one end before they could have it recorded at the other. You see, it was laid out in counties. "And the worst of it is it breaks up families so. Two years ago I saw a whole family prostrated with grief—women yelling, children howling and dogs barking. One of my men had his camp truck packed on seven four-mule teams and he was going around bidding everybody goodbye."

"Where was he going?"
"He was going half way across the farm to feed the pigs," replied the Dakota man."

"Did he ever get back to his family?"
"It isn't time for him yet. Up there we send young married couples out to milk the cows and their children bring home the milk."

IRISH BEET SUGAR.

According to many experienced business men the time has arrived when a beet sugar factory might be established in Ireland with prospects of success. The trouble in Cuba and the prospects of a sugar combine in the United States is viewed with some alarm in Ireland, as it is felt that the price of sugar would enormously increase. If cane sugar goes up beet sugar is bound to follow. Col. Everard, who was the first to see the possibilities of tobacco culture in Ireland, and demonstrated its practicability, is equally as enthusiastic with regard to the growth of beets in Ireland. He points out

Suits

and Overcoats

Recent cash purchases have given us some "mighty good things" in these goods—things that you'll find marked \$18 and \$20 at other stores. Come, men for first choice of them.

LEVY'S
THIRD AND MARKET

that Ireland imports as much as 135,000 tons of sugar annually, most of which he believes might be produced at home. The Colonel maintains that the beet grown in Ireland is quite as good as, if not superior to, that raised in Germany, which has 400 beet factories, producing 2,000,000 tons of sugar annually.

KNIGHTS OF COLUMBUS.

Late News That Will Interest
Members Here and Elsewhere.

There are at present 270 fourth degree members in Wisconsin and about fifty in Milwaukee. The first fourth degree will probably be given in Milwaukee on February 23.

Under the auspices of Bishop Carroll Council the Fathers of the Kentucky Apostolate will tomorrow begin a week's mission to non-Catholics in St. Aloysius' church in Covington.

The Board of Directors have made Wisconsin a separate fourth degree district. Heretofore Wisconsin has been affiliated with the Illinois jurisdiction and members have been compelled to go to Chicago to receive the degree.

Major Judson, U. S. A., will lecture on the campaign in Manchuria before Marquette Council of Milwaukee on December 14. Major Judson was United States military attaché with the Russian army during the recent war between Japan and Russia.

Tomorrow will be a gala day in Cincinnati Columbian circles. Cincinnati Council, Bishop Carroll Council and District Deputy Burns and his capable aides will institute the Norwood Council with fifty-four charter members and conduct the initiation.

The initiation at Jackson, Tenn., was an unqualified success. Seventy-two candidates received their degrees, and at the banquet that followed toasts were responded to by Rev. George D. Murphy, Rev. Thomas McNamara and Rev. Edward Kuetter.

SATOLLI COUNCIL.

Satolli Council, Y. M. I., met on Monday and transacted routine business. They were visited by Eric Ackenbauer, of Robert F. Doyle Council, Cincinnati, who delivered an instructive address to the members. Following this an enjoyable social session was held.

L. C. B. A.

Mrs. Elizabeth McGowan, President of the Ladies' Catholic Benevolent Association, has designated next Friday as the memorial day of the current year, when masses and prayers will be offered by all the branches of the order, 1,040 in number, for deceased members.

Use paraffin paper to wrap edibles in. Newspapers used in such a way are poor economy, for the ink with which they are printed is poisonous and is apt to be absorbed by the food.

UP THEY GO.

Fifty-Four New Members Admitted to Mackin Council.

Last Sunday afternoon Mackin Council made another great stride forward when fifty-four young men received the degrees and were added to its membership. Since the first of the present year there has been a steady and united effort to bring this council up to the 500 mark, and this has been practically accomplished, as about nineteen who had been elected were unable to be present to be initiated. The membership is now exactly 488 in good standing, and as there is yet another initiation before January 1 the goal will be reached without further effort, although those admitted last Sunday promise to secure another class.

The work of the degree team was very impressive and was highly commended by the visitors from other councils, among whom were John J. Barry, of New Haven, and Grand Marshal Daly, of Bellevue, who also congratulated Mackin on the success it was achieving. Short but timely and interesting addresses by Dr. A. J. Bisset, President, Ralphy, James T. Shelley, Frank Adams and others brought to a close a day of splendid work for Mackin Council, which is now after the largest membership in the United States.

CATHOLIC COLLEGE

Will Be Soon Established
Near Nashville by the
Jesuits.

The Order of Jesuits of the New Orleans province is said to have bought a tract of fifty-five acres two miles from Nashville to establish a college for boys which will eventually be a great university. Bishop Thomas S. Byrne, of the Nashville diocese, through whose efforts the college is to be established, made the condition that the order should send its best men to be put at the head of the college.

This is the first building of the Jesuits in Tennessee. Buildings to cost \$150,000 or more will be begun at once. The site adjoins the Nashville Golf and Country Club and is one of the best locations in the surrounding country. The Jesuits are recognized as perhaps the greatest of the Catholic teaching orders, and the news that they are coming this year will be well received throughout the adjoining States.

QUEEN'S COLLEGE.

Addressing a meeting at Cork last Saturday night with the object of furthering the conversion of the Queen's College in that city into a university for Munster, William O'Brien said that he and his wife intended to bequeath all they were worth toward endowing a Cork university.

BEEF TEST.

To test beef press it down with the thumb. If it rises quickly the meat is good. It should be fine grained, of a bright red color, with streaks of clean, white looking fat. The meat will be tough unless there is plenty of fat on it.

WORTH THINKING ABOUT.

A loving heart will make a thoughtful head.

The most unprofitable thing to hold in this world is a grudge.

What we get from the world depends upon what we give to it.

Success is utter failure if achieved by the sacrifice of moral principle.

He who wishes to be happier than others must first consider others.

MOTHER'S WORK.

"My mother gets me up, builds the fire, and gets my breakfast and sends me off," said a bright youth. "Then she gets my father up, gets his breakfast and sends him off. Then she gives the other children their breakfast and sends them to school; then she and the baby have their breakfast."

"How old is the baby?" asked the reporter.

"Oh, she's 'most two, but she can talk and walk as well as any of us." "I get two dollars a week, and she gets five dollars a day."

"How much does your mother get?"

"With a bewildered look the boy said: 'Mother! Why, she doesn't work for anybody.'"
